Projects:

Sr.	Project Title	Project Type	Duration	Technologies	Description
1	Games Management System & Result Management System	Web App	1.5 years	ASP.NET, MS SQL Server, MTS, VB, HTML, JavaScript, CSS	RMS for SAF Games Event held in capital city of Pakistan showing results of 15 games published on internet. Handled around 110 resources. I was part of team from its inception.
2	Hospital Management System	Web App	2 years	ASP.NET, MS SQL Server, Flash	HMS was developed by gathering requirements and development of prototype using VB. Flash was used to allow selection of tooth using Graphical Interface on web.
3	KoolBar	Plugin	1 year	VC, MS SQL Server	A plugin/Add-on was developed for web browser that made it child safe with addition of displaying ads.
4	ContactBook	Responsive Web App	1 Year	Angular, Dot Net Core, PHP, REST API, SQL Server, SQLite	Easy to use UI / UX for finding information of employees using web browser.
5	RideNShare	Web App	1.25 Years	C#, Google Maps, MS SQL Server	RNS is a car pooling app for adding and searching lifts to destination. Uses Google Map extensively.
6	CAP-NFS	Web App	2.5 Years	ASP.NET, MS SQL server	Credit Application Processing is part of NETSOL Financial Suite. We modified the system as per needs of client and deployed in CHINA.
7	Help Desk App	Web App	2 Years	ASP, MS SQL,	Help Desk system is

				JQuery	used to track support tickets submitted by clients of the organization.
8	Urdu Nigar	Desktop App	3 Years	C#	A windows based word editor for Urdu Script.
9	WorDoc	Mobile Game	1 Year	Unity3D	Android game hosted on Google Play Store
10	Human Resource Information System	Web Portal and Mobile App	3 Years	Angular, Java, Oracle, Cordova, NodeJS	HRIS is mobile first responsive app used as a portal by company employees to log their attendance, leaves and travel requests. The app provides drill down reports and dashboards.
11	Business Game System	eLearning App	1.5 years	Adobe Flash	Online learning game for business students.
12	Feedback System	Web Based Analytics	0.5 Year	C#, XAML, PHP, My SQL	Feedback system for employees with reports and dashboards for power users.
13	Jira IssueSync Admin System	Web App	0.5 Year	PHP, MySQL, WebHooks	Admin panel for managing issuesync plugin connectivity with Jira
14	3D Training Game	eLearning Solution	1 Year	Unity3D, WEB GL	3D learning application for pharmacy professionals.
15	School Management System	Web App	1 Year	PHP, MySQL	Students and Teachers information management system for international school.
16	PhansiGhar	Mobile App	1 Year	HTML, JQuery, Cordova	Android Game for figuring right Urdu word.
17	Video Management System	YouTube Clone	0.5 Year	HTML, CSS, PHP, MySQL, API	Upload and Approve Videos for authorized users.
18	Online Neon	e-Commerce	1 Year	HTML, CSS,	e-Commerce Platform

	Builder	System		JQuery, PHP, MySQL, OpenCart	with Neon Sign Configuration System
19	Documents Sharing System	REST APIs	0.5 Year	Python, Django, REST API	CRUD with filtering of Data (Json) using parameters.
20	Online Quiz System	Web App	0.5 Year	Php, MySql	Used to evaluate candidates before hiring
21	Bionify	Web Browser Extension	1 month	JavaScript	Bionic Reading extension for Chrome, Edge and FireFox
22	JIT Learning App	Web App, Addon	1 Year	Python, Django, API, Postgresql, ElasticSearch, RabbitMQ, AWS	Just In Time learning app with addition of Chrome Extension
23	Asana Integration with Google Sheets	Web Hooks	4 months	Python, Flask, API, Multithreading, Digital Ocean	Update Asana Tasks based on Google Sheets data
24	Messaging System	Desktop App	1 month	Python, pySimpleGUI, API	Messaging System using PushBullet
25	ChatGPT Client	Console App	1 week	Python, Google Cloud	Ask Siri, Alexa, Google Assistant Clone
26	AI Chat Bot using ChatGPT	Web App	4 weeks	Python, Langchain, Javascript, OpenAi	Chat and get intelligent answers by indexing of proprietary sources (documents)
27	Urdu Bar	Chrome Extension	2 weeks	JavaScript	Addon for web browser that allow writing of Urdu
28	Chatbot for Investment (FinBot)	AI Assistant	6 weeks	Python, FASTAPI, OpenAi, Streamlit	A web based LLM that provides responses based on stocks, options and forex data
29	Twitter Dashboard	ETL (API to DB)	4 weeks	Python, AWS Lambda	Consolidated results from Twitter API to display graphs.

30	POS Receipt printing system	Receipts from Thermal Printers	2 weeks	Python, SQLite	Generates PDF receipts optimized for POS Printers
31	Mehr Typing Tool	Font Manager	16 weeks	QT C++	Urdu Font Security System
32	Social Media (Digital Marketing) Ads Visualization System	Cloud based system for Market Analysis	18 weeks	GCP, Python, BigQuery, Looker Studio	Cloud based Dashboard that uses ETL and Data Warehouse.
33	LaserCut Printer Driver for Windows	Print to PDF converter with installation system	6 weeks	Python, C#, C++, WinUI3, NSIS Installer	Developed Virtual Printer to convert documents/images to pdf

Screen Shots:

HRIS: [ERP] (Angular, Java, Oracle)

The image shows a login interface for the HRIS (Human Resource Information System). The background is a solid blue color. In the top left corner, the logo "HRIS" is displayed in white, with the "H" and "R" in a stylized font. Below the logo, a white text block reads: "Welcome to the HRIS (Human Resource Information System) your personal online Resource Management Assistant. Please use Windows credentials to login in HRIS." Below this text, there are three input fields. The first is labeled "User Name *" and has a white text input field. The second is labeled "Password *" and has a white text input field. The third is labeled "Domain" and has a white dropdown menu with "NETSOLPK" selected. Below these fields is a white rounded rectangular button with the text "Login" in blue.

Network Service Desk: (Ticketing System)

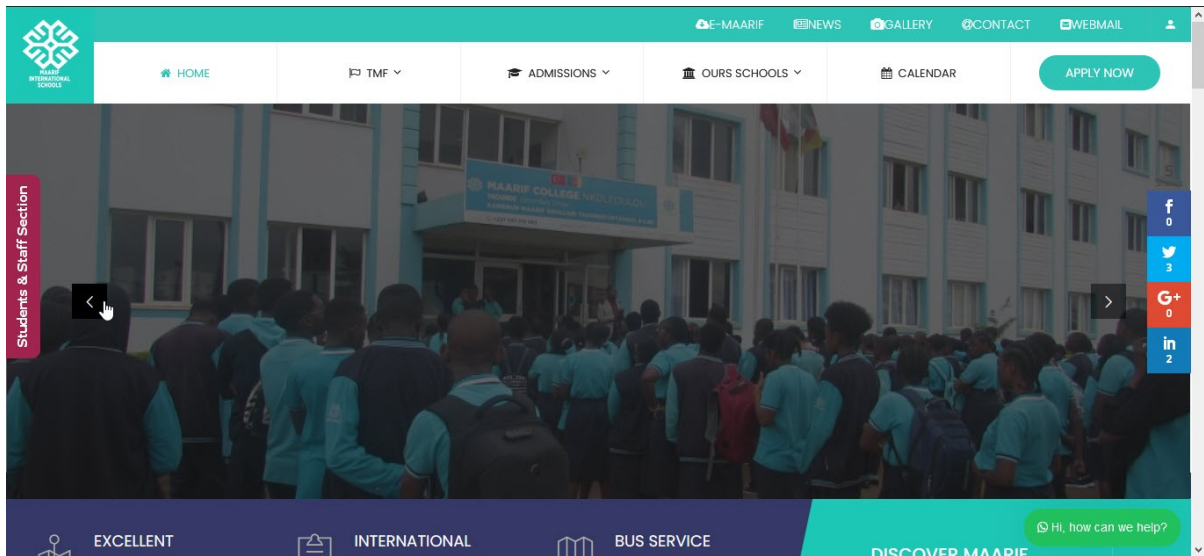

Jira IssueSync Admin: (DB Portal)

RideNShare: [Car Pooling App] (ASP.NET, JavaScript, C#, MS SQL)

School Management System: [Web Portal] (PHP)

WorDoc Mobile Game: [Android Based App] (Unity)

Customer Feedback System: [Web App] (ASP.NET, C#)

The login page features a blue header and a white content area. On the left is the NETSOL logo, consisting of a stylized blue 'N' and the word 'NETSOL' in black. To the right, the text 'Welcome to Feedback System!' is displayed above a login form. The form includes a 'Username' input field, a 'Password' input field, and a blue 'Login' button.

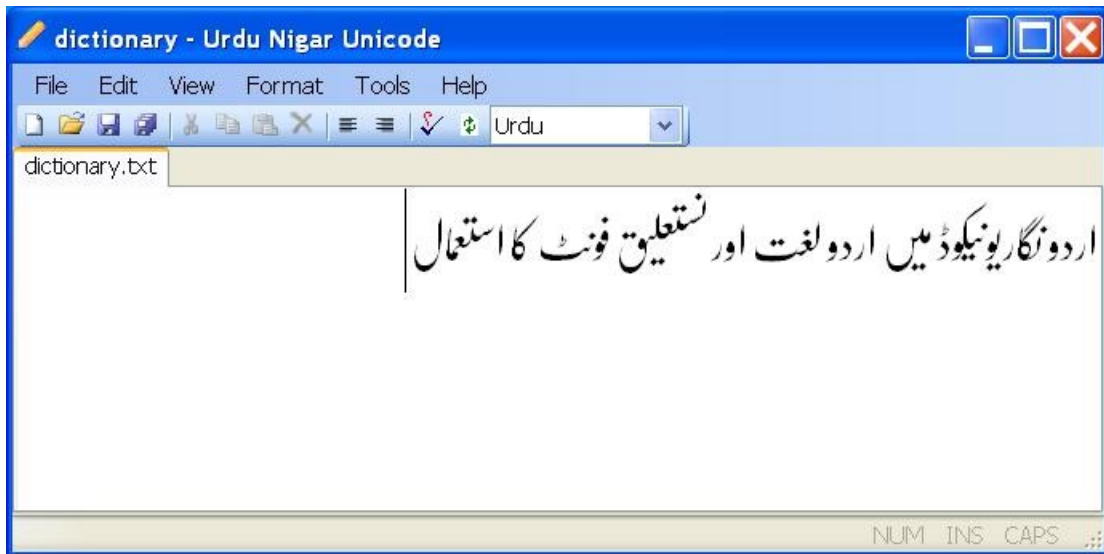

Parking Slot Management: [Responsive Web App] (ASP.NET, C#, XAML)

The image shows a web application interface for "Parking Slot Management". The title "Parking Slot Management" is displayed in white text on a dark blue background. Below it, the text "ADMIN LOGIN" is shown in white on a black background. There are three input fields: "UserName" and "Password" are in rounded rectangles with blue borders, and "Log In" is in a rounded rectangle with a green border. The "Log In" button is highlighted with a green border.

Urdu Nigar Editor: [Word Processor] [Desktop App] (C#)

Phone Book: [Responsive Web App] (Angular, ASP Core, MS SQL)

The screenshot shows a web browser at the URL 'phonebook2/pb2/home'. The page has a search bar with 'Salim' entered and a 'Filter' button. Below the search bar, there is a table with 9 columns: ECode, Name, Email ID, Ext, Mobile, Department, Team, Designation, and BG. The table displays three rows of data, with the first row highlighted. The search results are filtered to show only entries containing 'Salim'.

ECode	Name	Email ID	Ext	Mobile	Department	Team	Designation	BG
588	Asad Salim Toor	asad.toor	2027		Enabling Applications	Technical Communication	Manager Technical Communication	B+
3205	Muhammad Nabeel Salim	nabeel.salim	112		Network Operations & Services	IT Support	Principal IT Support Engineer	A+
1	Salim Ullah Ghauri	salim.ghauri	167		Management	Management	CEO	A+

The screenshot shows the same web browser at the URL 'phonebook2/pb2/home'. The search bar is empty, and the 'Filter' button is active. Below the search bar, there is a filter panel with various input fields and dropdown menus. The table below the filter panel shows three rows of data, with the first row highlighted. The filter panel includes fields for Name, Department, Team, Extension, Designation, Employee Code, Mobile, Blood Group, and Vehicle No. There is also a 'Favorite' checkbox and a 'Clear Filter' button.

ECode	Name	Email ID	Ext	Mobile	Department	Team	Designation
3465	Muhammad Imran	imran.baig	242	03009445880	NETSOL Financial Suite	Ascent 1.0 Retail	Senior Software A
3495	Fawad Yousaf	fawad.yousaf	515	03234006774	NETSOL Financial Suite	Ascent 2.0 Dev	System Analyst
3502	Muhammad Ali Yousaf	ali.mughal	2011	03224737040	NETSOL Financial Suite	Ascent 2.0 Dev	Principal Software

Help Desk System: [Customer Support Portal] (ASP)

The screenshot shows the Help Desk System v3.02 interface. The page has a blue header with the title 'HelpDesk v3.02'. Below the header, there is a welcome message and a description of the system. On the right side, there is a login section with fields for 'Login ID' and 'Password', and buttons for 'Login' and 'Reset'. There is also a link for 'Login Problems'. The footer contains the Netsol logo and copyright information.

Home **Record** Listen Chat Report

Welcome to demo page of AI

Following is the detail:

- **Record:** User can speak the details of incidents by recording using microphone. These recordings are converted into text using a speech to text engine. The resultant text is saved in database and available for retrieval in form of reports.
- **Report:** This page shows details of the recorded incidents in form of a list.
- **Listen:** The web page starts recording audio spoken by user and the recorded Audio is converted to text which is made available for processing and retrieval through chat.
- **Chat:** The web page shows a textbox in which the user inputs question, after pressing Send button, the Server returns the response by searching data files of incidents recorded earlier (i.e. Using Record and Listen Options).

The system uses AI technologies such as Speech to Text, Text to Speech, Text Analysis, LLM Models, Intelligent response system etc.
