---

## Summary:

- Possess 21+ years of diverse experience in the IT industry, currently serving as a Software Solutions Provider.
  - Implemented enterprise solutions, automation frameworks, and Agile strategies to enhance efficiency and scalability.
  - Developed and executed innovative ideas to drive organizational improvements and growth.
- 

## Skills:

- Participated in various IT projects, contributing to their evaluation, conception, and successful completion.
  - Passionate about utilizing AI and data-driven strategies to enhance operational efficiency, streamline disaster recovery processes, and optimize network readiness.
  - Proficient in Agile software development, DevOps practices, and information security principles.
  - Worked as a Data Engineer with expertise in ETL pipelines and processes.
- 

## Technical Skills:

- **Programming:** Advanced Python (Certified), ASP.NET, TypeScript, JavaScript, JQuery, ReactJs, NodeJS, Angular, REST APIs, C#, Visual Basic, Java, PHP
  - **Tools:** Unity, UiPath, Selenium
  - **Frameworks:** Flask, Django, FastAPI
  - **Databases:** MS SQL Server, MySQL, SQLite, Oracle, Redis, PostgreSQL
  - **General:** MS Project, Visio, MS Office, Jira, Asana, Monday.com, Clickup, Trello
  - **Cloud:** Digital Ocean, Heroku, Azure, AWS, GCP
- 

## Education:

- Bachelor of Science Degree in Computer Science [BCS], FAST-National University of Computer and Emerging Sciences, Pakistan
- 

## Technical Experience:

- Developed Web Applications based on Service Oriented Architecture
  - Developed Web SAAS Portals that are accessible within & outside organization
  - Developed fault-tolerant applications with particular attention to security, scalability and high performance
  - Designed and implemented robust automation solutions, integrating AI for dynamic insights and task automation.
- 

## Certificates:

- Python for Data Science
- FastAPI
- Data Warehouse
- Analytics Engineering
- Software Architecture & Design

**Experience:****Role Lead Software Developer at [www.i9softtech.com](http://www.i9softtech.com)**

- Developed AI-based SaaS applications leveraging NLP and Generative AI technologies.
- Automated Application deployment and management of large-scale cloud environments

**Role Data Engineer at [www.data-pilot.com](http://www.data-pilot.com)**

- Developed ETL Pipelines, fetching data from Social Media Platforms using APIs
- Ingested data from HubSpot, Meta (Facebook), X (Twitter), LinkedIn, Sprout Social, Signal Ai and Google Analytics
- Worked as Backend developer using Python and FASTAPI
- Worked on Cloud Services like BigQuery, Cloud Function, Lambda, SageMaker
- Extensive experience with Google Cloud Platform (GCP), along with hands-on work on AWS and Azure

**Role Software Consultant at [www.blattner.tech](http://www.blattner.tech)**

- Developed AI Apps using Speech to Text, Text to Speech and Generative AI
- Worked as Full Stack developer using Python, Flask and JavaScript

**Role: Senior Software Developer at [www.spekit.com](http://www.spekit.com)**

- Working as technologist and developer for the AI based SAAS product
- Worked as Backend developer using Python, Django, REST Framework & Postgresql

**Role: Software Developer / Freelancer at [www.upwork.com](http://www.upwork.com)**

- Software projects in Python, Django, Flask, FastApi using Rest Api Framework & Postgresql
- Developed an app that connects Google Spread Sheets with Asana using REST APIs (Python, Flask and SQLite)

**Role: Technology Consultant and Senior Developer at [www.netsoltech.com](http://www.netsoltech.com)**

- Handled multiple enterprise web applications development (e.g. HR System, HelpDesk System, Ticketing System, Mobile Applications, Hospital Management System)
- Implemented JIRA within organization
- Developed coding standards and best practices for organization
- Developed information radiators (Dashboards) for better visibility of agile teams

**Role: Software Programmer at [www.netsolpk.com](http://www.netsolpk.com)**

- Designed, architected and participated in the development of a desktop as well web-based software applications.
- Implemented whole SDLC starting from Requirements Collection, Designing, Programming, Unit Testing, implementation, maintenance and documentation.
- Deployment of Applications, User Training and User Acceptance Testing

---

**Trainings Delivered & Other Experience:**

- Worn multiple hats and played different roles from plain Software developer to a Technical Lead
- Conducted trainings (JIRA, Python, Agile, Static Analysis, Unit Testing, Code Reviews, Web Application Development using .NET & PHP, Angular, C# and Software Engineering)
