- *Internet:* PHP, ASP.NET, TypeScript, JavaScript, JQuery, NodeJS, REST APIs
 - *Languages & Tools:* C#, Visual Basic, Java, Unity, Python (Certified)
 - *Frameworks:* DotNet Core, MVC, Flask, Django, Codeignitor, FastApi, Jersey
 - *Databases:* MS SQL Server, MySQL, SQLite, Oracle, Postgresql, Redis
 - *General:* MS Project, Visio, MS Office, Jira, Asana, Monday.com, Trello, ClickUp, GIT
 - *Data:* BigQuery, Cloud Function, DataForm, Looker Studio, Azure DevOps
 - *Cloud:* SAAS, Azure Cloud, Digital Ocean, Heroku, AWS, GCP
-

Education:

- Master in Business Administration [MBA], Punjab University, Pakistan (2005-2007)
 - Bachelor of Science Degree in Computer Science [BCS], FAST-National University of Computer and Emerging Sciences, Pakistan (1996-1998)
-

Technical Experience:

- Designed, developed, and deployed pipelines for ETL solutions to extract, transform, and load data from various sources to the data warehouse.
 - Developed Dashboards showing status of Pipelines and Deployments.
 - Mentored development team members on technical topics and still hands-on
-

Trainings:

- Agile Certified Practitioner, PMI
 - 7 Habits of highly effective people, NetSol Corporate University
-

Certificate:

- Python for Data Science
- FastAPI Course
- Data Warehouse Course
- Analytics Engineering

Experience:

DevOps Manager

SEPTEMBER 2023 – TODATE DATA-PILOT

- Spearheaded the development and maintenance of the CI/CD pipeline for the Enterprise CI & CD Pipeline team.
- Collaborated with engineering teams to understand pipeline requirements and implemented newly curated patterns
- Worked closely with agile teams and product owners to ensure end-to-end quality and timely delivery of applications.

DevOps/MLOps Consultant

APRIL 2021 – AUGUST 2023 SPEKIT, Blattner Technologies & Other

- Actively participated in architecture discussions and contributed to decision-making processes.
- Facilitated DevOps practices by automating code deployment processes across various environments.
- Provided onboarding, training, and support to developers on source control, build automation, CI/CD, and deployment processes.

Technical Manager (Cloud)

JANUARY 2016 – MARCH 2021 NETSOL, Pakistan (NASDAQ: NTWK)

- Implemented robust monitoring, alerting, and logging systems to ensure system reliability and performance.
 - Used Java, C#, ASP.NET, Python, PHP in various projects.
 - Implemented JIRA within organization
 - Developed coding standards and best practices for organization
 - Trainings on Code Reviews, Unit Testing practices and Agile (SCRUM)
 - Researched and evaluated new technology opportunities to enhance technical capabilities.
 - Developed information radiators (**Dashboards**) for better visibility of agile teams
 - Used popular frameworks like Flask, Django, .NET Core, CodeIgnitor, Jersey
 - Used Databases like MS SQL Server, Oracle, Postgresql and MySQL
 - Played a key role in strategic technology decisions and contributed to shaping the external image of the company as a technology leader.
 - Acted as a thought leader and actively participated in internal and external technology communities.
 - Implemented whole SDLC starting from Requirements Collection, Designing, Programming, Unit Testing, implementation, maintenance and documentation.
 - Deployment of Applications, User Training and User Acceptance Testing on Client Side
 - Providing technical guidance and solutions to problems
 - Developed documents and artifacts in compliance to CMMi Level 5
-

Trainings Delivered & Other Experience:

- Worked almost in all popular cloud platforms like AWS, Azure and GCP.
- Conducted trainings (JIRA, Agile practices, Static Analysis, DevOps, Unit Testing, Web Development, Databases, Software Engineering)
